

# BRIAN SIKLINSKI

## WEB DEVELOPER

### / ALL ABOUT ME

I am a self-taught web developer with professional agency experience in React, JavaScript, PHP, and WordPress, among other skills.

An effective communicator with a natural eye for design, I am adaptable to different technologies and quick to learn. I strive to write efficient, reusable, and readable code that is accessible for all.

### / WORK EXPERIENCE

#### >> Web Developer

Easily Amused, Inc. | Sep 2020 to Sep 2021

- > Used React/JavaScript, PHP, GraphQL, CSS/SCSS, MySQL, and other web technologies to develop and debug websites and web applications.
- > Utilized backend and frontend technologies to develop and design custom WordPress plugins for internal and client uses; built custom blocks and plugins for use with the new React-based editor.
- > Used Git CLI and GitHub to manage code; wrote custom shell scripts to package versioned plugins and improve workflow; utilized Composer and NPM package managers.
- > Regularly met with clients to discuss development goals and timelines; worked alongside other teams; performed code reviews on pull requests.
- > Wrote public-facing documentation and aided in writing brand and marketing copy; kept detailed meeting notes for company-wide reference.

#### >> Seasonal Biological Technician Positions

Various | Jan 2014 to Dec 2019

- > Acted as crew member and/or supervisor on invasive species management projects throughout New York State and Death Valley National Park.
- > Collected and analyzed GPS data with GIS mapping software; maintained data quality for transfer to state and federal databases.

#### >> Technical Writer / Environmental Analyst

Lender Consulting Services, Inc. | Jan 2016 to Apr 2018

- > Reviewed regulatory databases, historical maps, site inspector reports, and other documents; analyzed risk and prepared Phase I Environmental Site Assessment reports.
